One day training-cum- input distribution programme organized by ICAR- ISRI, Lucknow at Mirzapur, U.P.

One day training-cum- input distribution programme for scheduled caste farmers was organized on 6th November, 2026 at Village- Galara, Block- Haliya, District- Mirzapur, Uttar Pradesh under SCSP programme for enhancement of their livelihood. In this training programme, a total of 300 scheduled caste farmers including 177 female and 123 male were participated. Dr. Dinesh Singh, Head & Principal Scientist, Division of Crop Protection, ICAR- Indian Sugarcane Research Institute, Lucknow presented over view of the programme and mentioned the scope of SCSP program. Dr. S. K, Goswami, Sr. Scientist, Division Crop Protection, ICAR-ISRI, Lucknow delivered lecture on integrated disease management of crops. Biological control of insect pest of crops was delivered by Dr. K. Srinivas, Scientist, Division of Crop Protection, ICAR-ISRI, Lucknow. Dr. Shree Ram Singh, Head, KVK, Mirzapur, U.P. was the chief guest of the occasion and addressed the farmers by elaborating the cultural practices of rabi season crops to get maximum production of the crop. Different inputs such as seeds of high yielding varieties (wheat, chickpea & mustard), plastic crate, *Trichoderma*, carbendazim, mineral mixture, vermicompost and khurpi were distributed to 300 farmers belonging to SC categories. Mr. K. K. Suman, Chief technical officer, ICAR-ISRI, Lucknow proposed the vote of thanks. Mr. Shreyansh Kumar helped to organize the program. The programme was successfully organized and farmers showed overwhelming response related to this programme.
